

Overview of September 2021 submissions

*EEA & ETC-ATNI work
compiled by Joana Soares (NILU)*

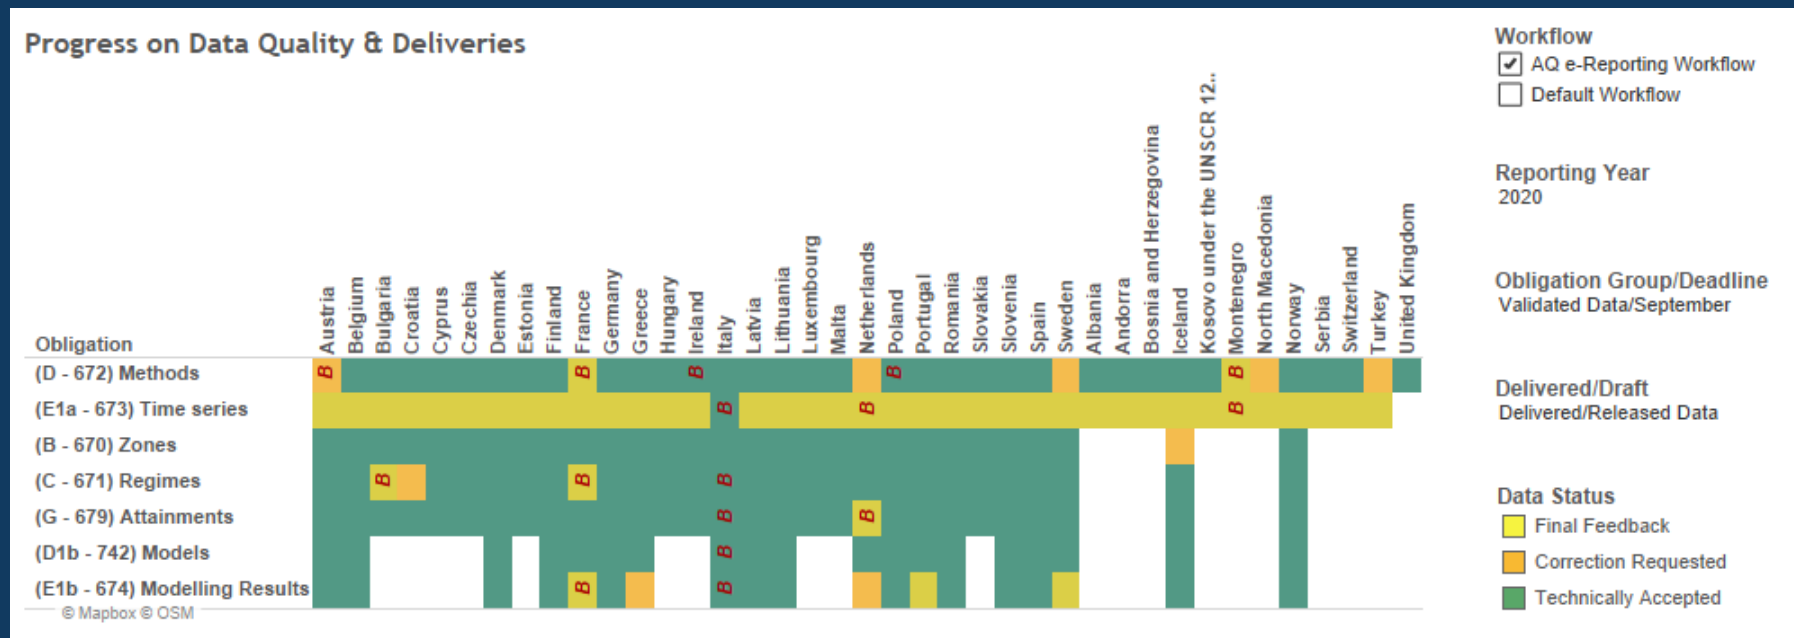

Submission Status and Timeline

- Submission started at the end of May
- Gradual increase at the end of August
- Peak during last week of September
- **Few resubmissions after September's deadline**

Submission Status and Timeline

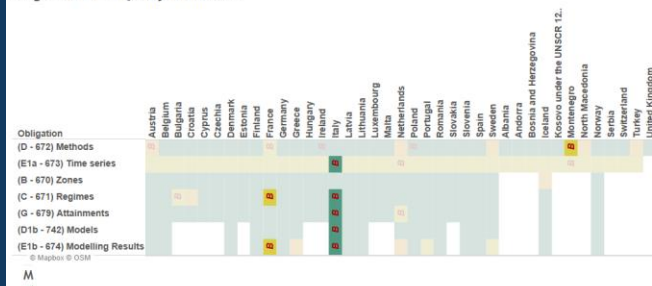

- Very few remaining issues, with some corrections needed
- The envelopes for E1a will be completed soon

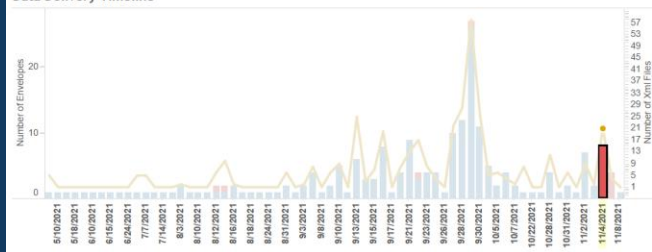

Submission Status and Timeline

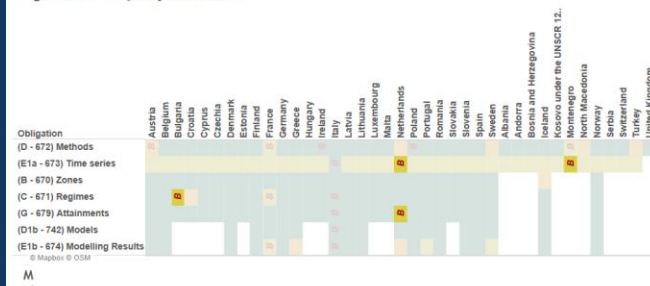

Progress on Data Quality & Deliveries

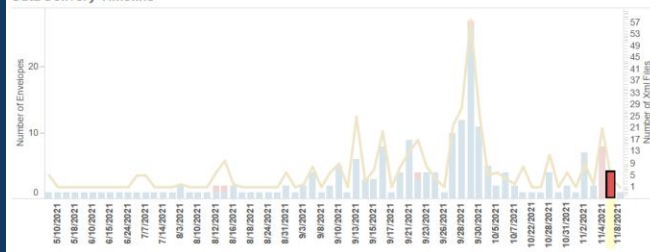

Data Delivery Timeline

Progress on Data Quality & Deliveries

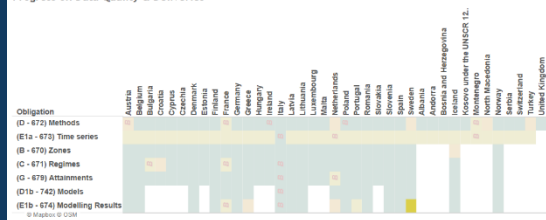

Data Delivery Timeline

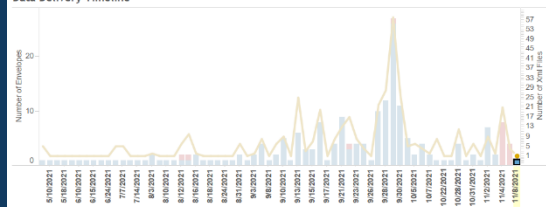

Most of the blockers are due to a bug in CDR that prevented release before the resubmission deadline

Progress on Data Quality & Deliveries

Data Delivery Timeline

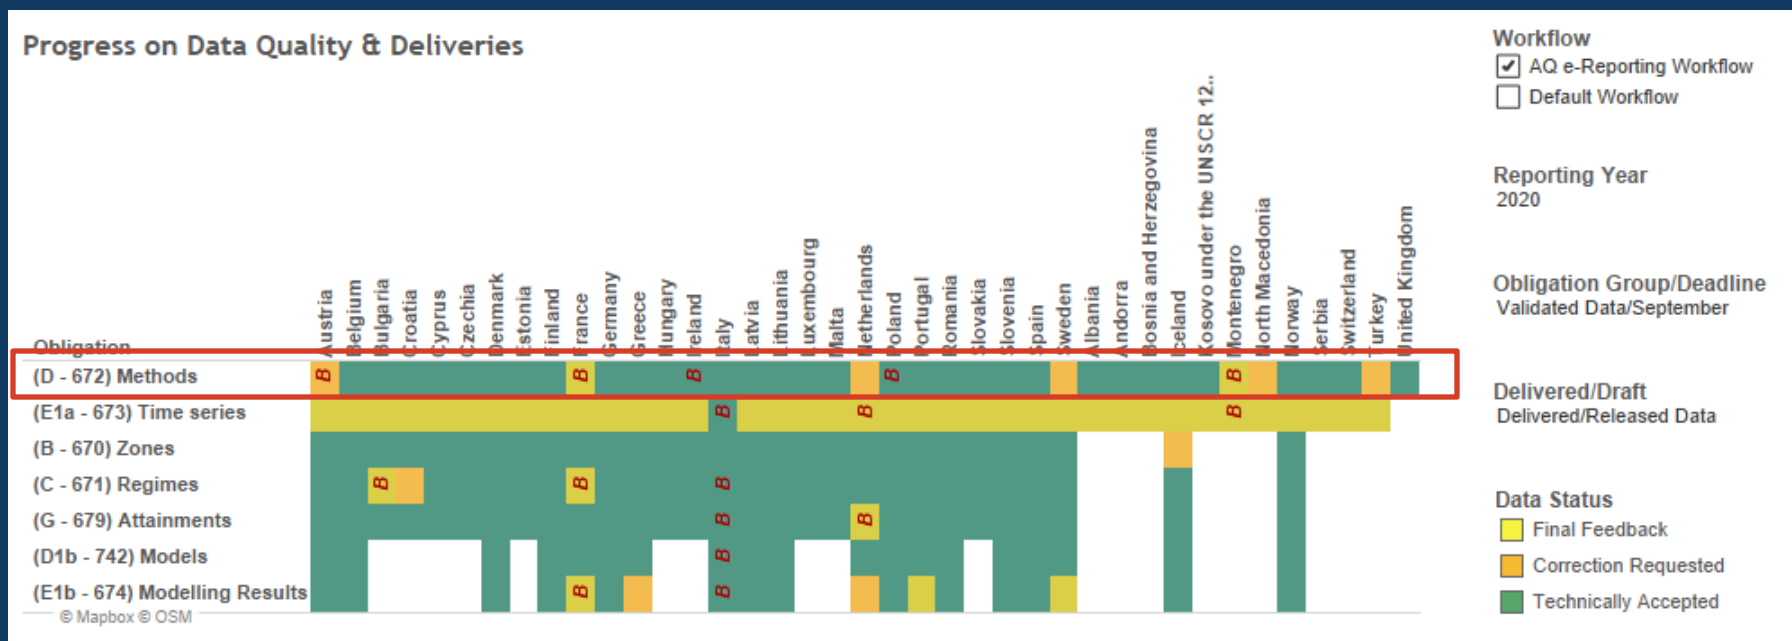

or force released by EEA/ETC later than the resubmission deadline

Remaining issues B-G

- **Blockers**

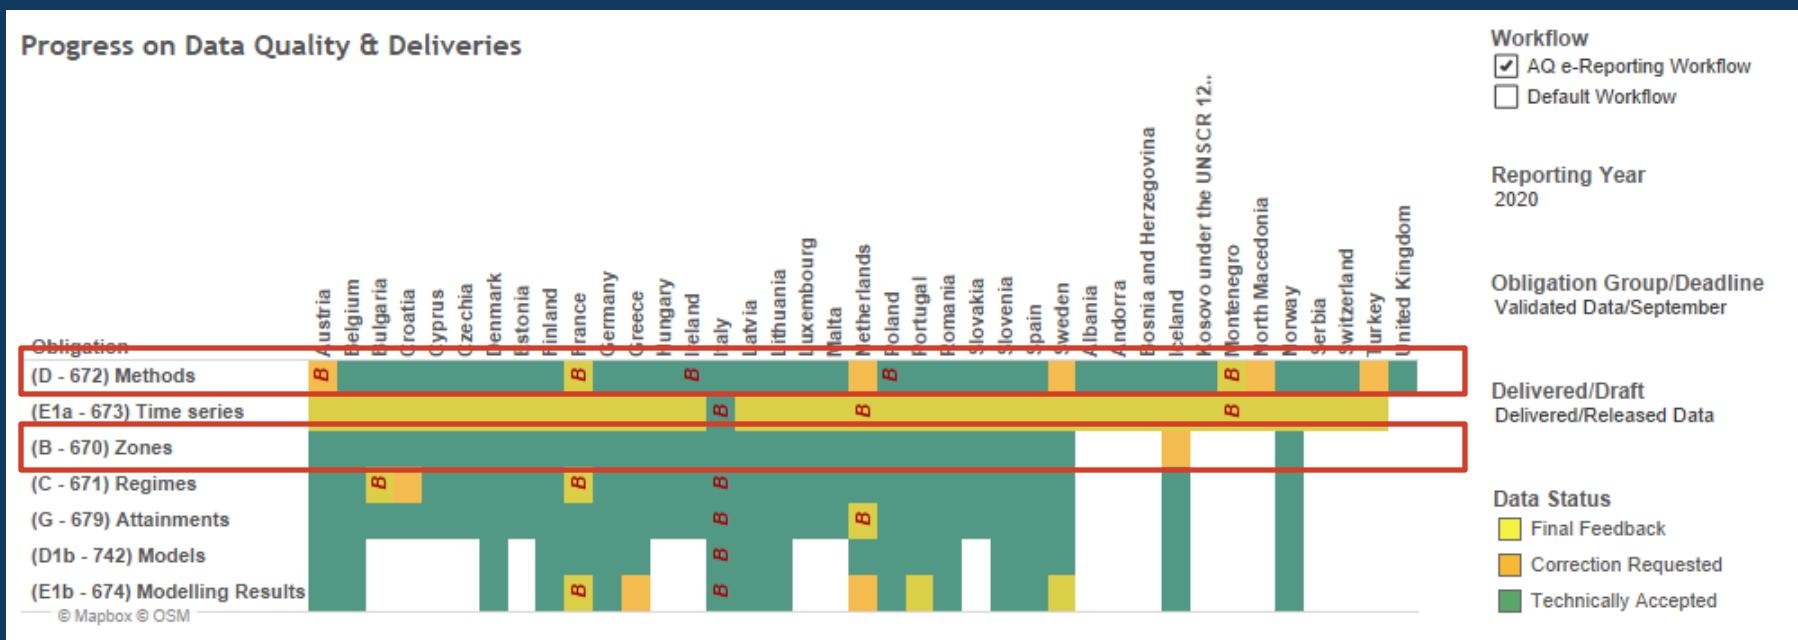

- *Missing features from previous submissions (D03b)*
- *Activity period specification: Observing Capability vs Operational Activity (D37b)*

Remaining issues B-G

- Errors**

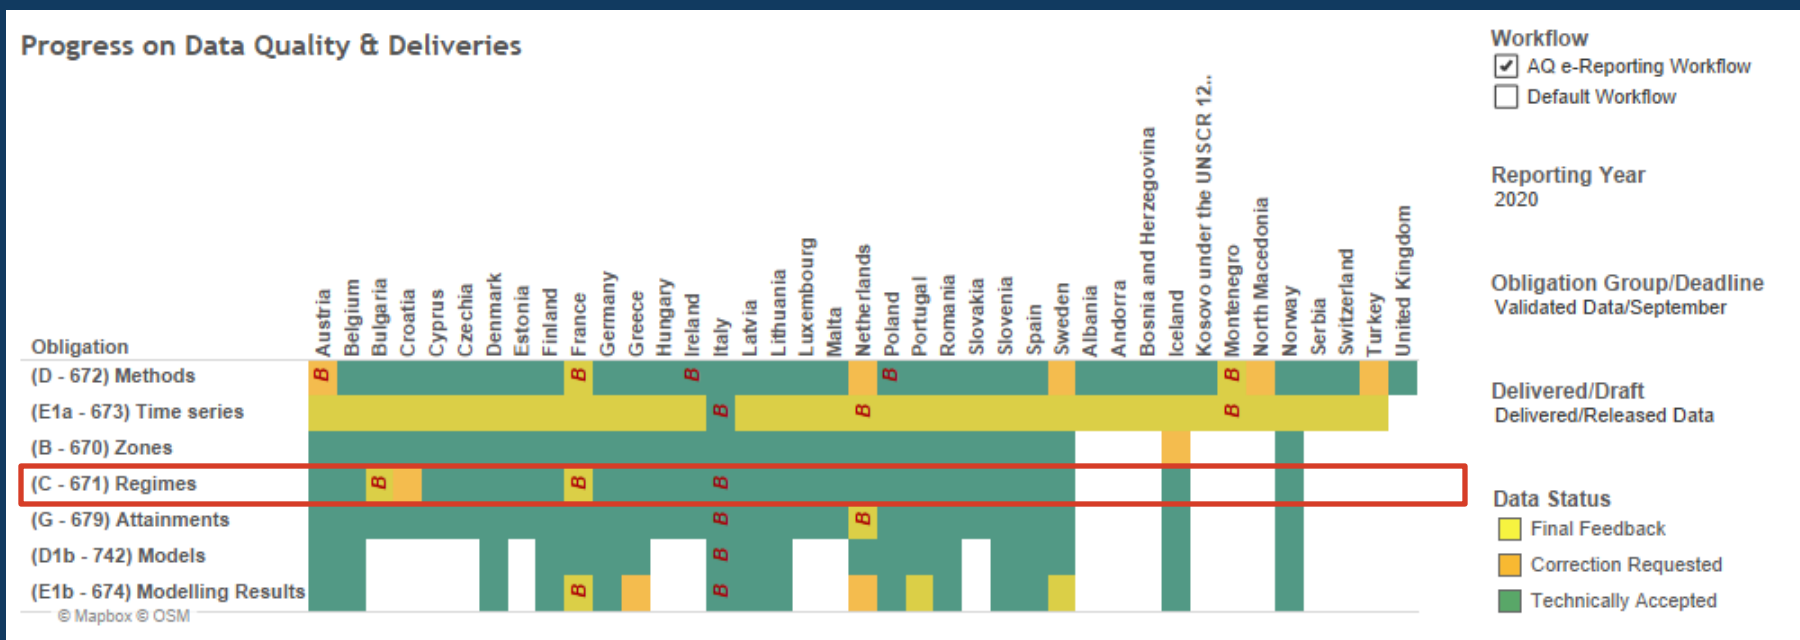

- *SPO proximity to station (D36)*
- *Activity period specification (D37a, D45)*
- *Check that the total area covered by zones for each pollutant corresponds to the country extent (B21)*

Remaining issues B-G

- Errors**

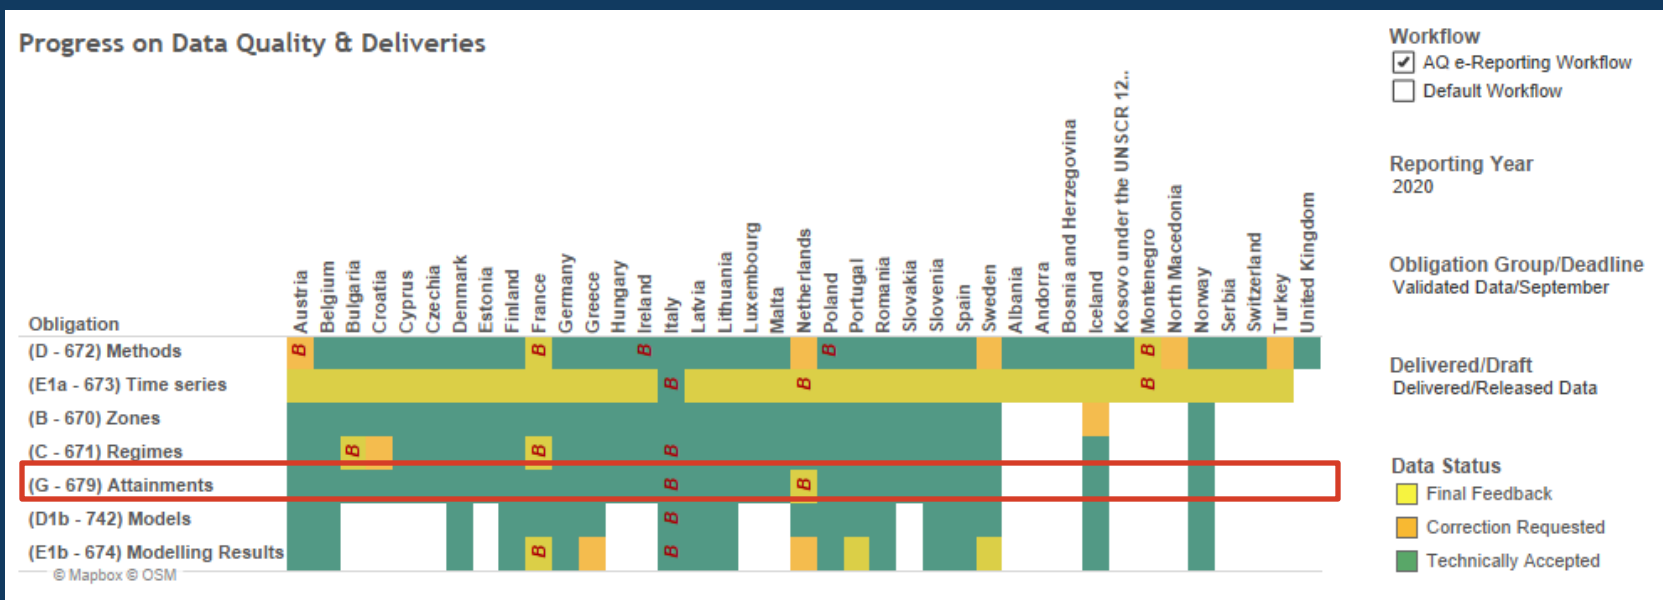

- Consistency with preliminary C (C03)
- Wrong threshold classification (C21)
- Assessment method not operational (C26)
- Missing Assessment Method (C40)
- Classification older than 5 years (C41)

Remaining issues B-G

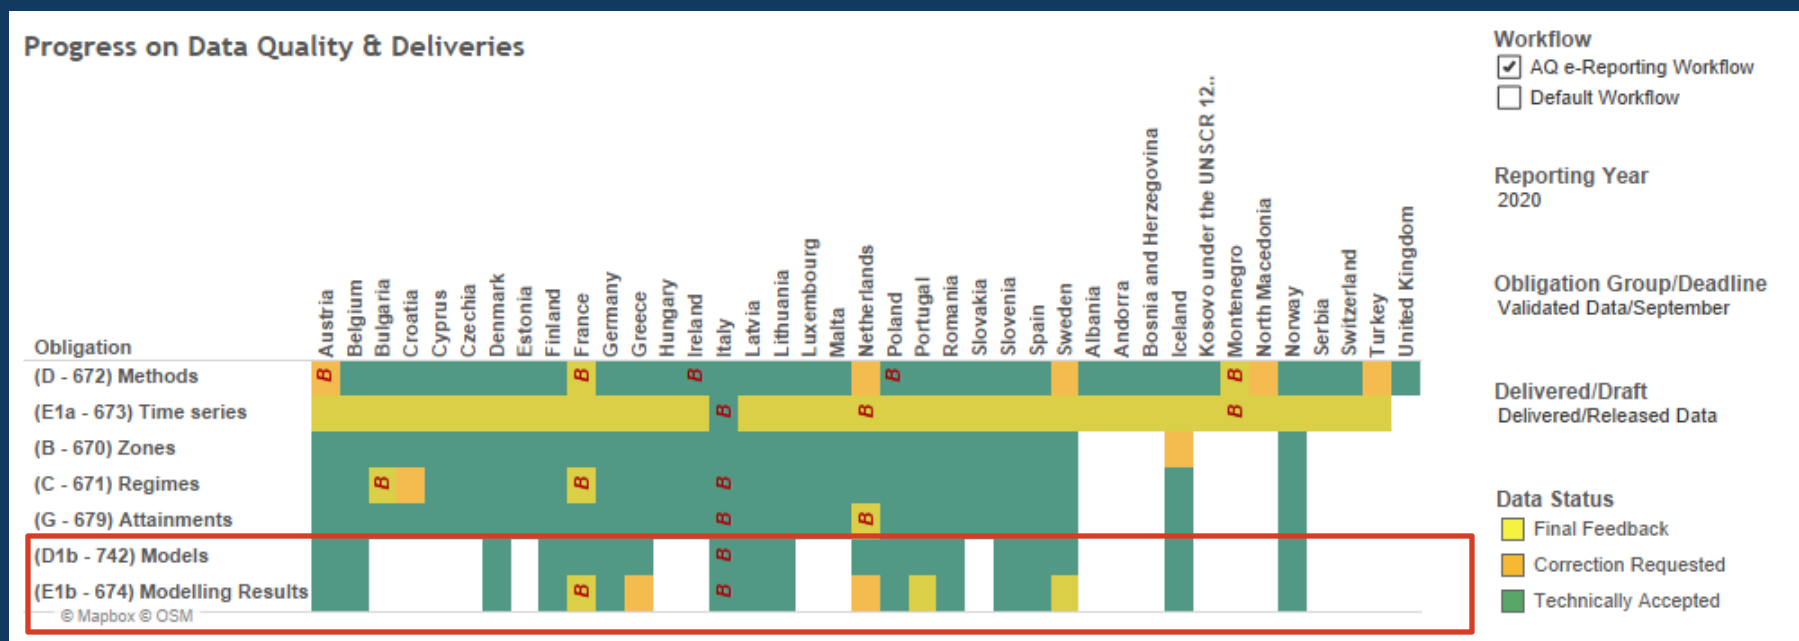

Errors

- future blockers in the QC routine.*
- G14b – Assessment Regimes not linked from C
 - G89 - Primary validated data must be submitted for all declared methods under Assessment Regime before releasing the Attainment.
- **Analysis on G89 ongoing to be presented in the next TIPR → QC's may be changed accordingly**

Remaining issues B-G

- **Major work was done on models:**
 - more of half of the countries have resubmitted after corrections
 - new checks will be implemented (presented in the 1st day of the TIPR)
 - *Eb43– Missing projection file .prj for shapefile submissions– also technical*

Updates on the new AQ portal and other viewers by Artur Gsella (EEA)
